

SKWERDLOCK TABLE STORIES!

All Ages!

How many sounds
can I hear right
now?

What food do I
never want to eat
again?

ABOUT THE GAME

Skwerdlock Table Stories is a simple way for your family to share stories, real and imaginary. This game is designed to be played while everyone is sitting at a table, for a meal, or just for some time together. This version of the game is for all ages.

PREPARE TO PLAY

Print a copy of the Skwerdlock Table Stories Card Sheet, and cut out the individual cards. They should look like the cards on the sides of this page. Put the cut-out cards in a bowl, or box, or just in a pile on the table.

Would I rather be
famous or liked by
everyone?

What would I do if the
room I am in was
suddenly filled with
jello?

PREPARE TO PLAY

Put the Skwerdlock Table Stories cards where you can reach them.

Taking turns however you want, have someone draw a card and read what it outloud, or have someone read it for you.

Using the sentence on your card as the first sentence, tell everyone a short story...a real one...or made-up one.

When the story is over, the next person draws a card and tells their story.

You can make more rules if you want, but just enjoy the stories!

What is the most
important thing I do
every day?

What do I have in my
pockets right now?
